

HOFMANN®

Monty 3650

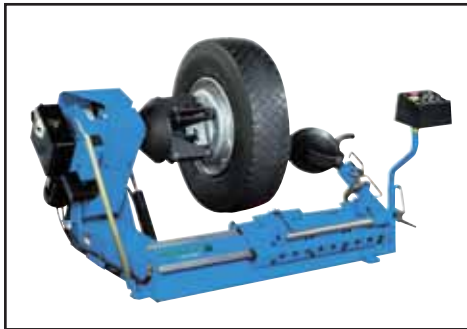

TIRE CHANGER

Monty 3650

SPECIFICALLY DESIGNED TO CHANGE OVER-THE-ROAD, RV AND BUS TIRES

The Hofmann 3650 is affordably priced for use by freight forwarders, bus garages and municipal facilities that maintain a fleet of vehicles.

- **Simple quick operation**
After mounting the wheel onto the rotating chuck, both of the beads are quickly broken using the bead rollers. The tire is then removed using these same bead rollers. Installation is just as quick and easy.
- **One-man operation**
The integrated control panel conveniently moves into any position allowing one person to operate the tire changer.
- **Minimum space requirements**
The 3650 uses less shop space than most other tire changers in its class.
- **Affordably priced for fleets**
Even with a fleet as small as 20 vehicles, the 3650 will pay for itself the first year.

Heavy duty tire changer for trucks, buses and off-road tires.

Heavy duty wheel balancer for truck, bus, RV, and automobile/light truck tires.

TIRE CHANGER
